

Grand Doggie Tour Mural

-- Instructions --

First: Take a look at the mural background rendering. The original will be on display at Club Pooche. This is a scale painting of what the mural will look like. The mural will be 20 feet long and 7-1/2 feet high and painted on the interior south wall at Club Pooche.

Second: Take a look at the mural sample of the Horse Carriage, also at Club Pooche. This is how each pet caricature will be painted onto the background.

Third: Check out the master reservation list at Club Pooche. This lists all the characters that will be appearing in the mural. Pick out a rôle for your pet and we will paint his or her caricature in that activité.

Production: Once we have 40 rôles filled out on the master list we will begin production of the background mural. The background isn't set in stone so we may make changes based on the response from you.

Development: After the background is finished we will begin developing the characters. A pencil sketch will be made of each, so we'll need good snap shots and some suggestions of how your doggie should appear. We'll want your approval of the sketches but for the sake of the mural we will have the final decisions. Based on these sketches, the image will be painted in acrylic on canvas.

Finally, take note of the printed sample. Each participant will get an 11 x 17 inch print of their doggie in his or her starring rôle in the Club Pooche Grand Tour Mural. And since each caricature will be scanned and saved as a digital file we will make your doggie's image available on just about anything: t-shirts, mugs, hats, or note cards.
